

## SPECIFICATIONS AND FEATURES

### Grow Light

Product Type .....	XL750 LED Grow Light
Manufacturer .....	KIND LED K5 Series
Model Number .....	USGL430WKND
Price .....	\$1,245.00
Dimensions .....	23" x 17" x 3.5"
Wattage .....	430
Suggested Replacement For: .....	750W HID
Total Diodes .....	208
Diode Wattage .....	Perfect Mix of 3 Watt and 5 Watt
Footprint .....	4' x 4'
Input Voltage .....	100-277VAC
Work Frequency .....	50/60 Hz - Suitable for Global Energy Environment
Output Voltage .....	UL Standard - Less than 76VDC
Amperage .....	3.58 at 110VAC
Certifications .....	CE, RoHS
Length of Warranty (YEARS) .....	3

**KIND LED Grow Lights use a proprietary 12 bandwidth spectrum comprised of 3 watt diodes that run at 650mA, compared to most lesser grow lights that run at 500mA with only a 6 bandwidth spectrum. Thick 2cm aluminum heat sink optimally dissipates heat allowing the KIND LED grow light to last longer, running more efficiently and with the greatest performance in its class. Featuring the Revolutionary "Second Optical Lens" for maximum photosynthetic penetration from plant top to base.**
