

SPECIFICATIONS AND FEATURES

Grow Light

Product Type	VEG L600 LED Grow Light
Manufacturer	KIND LED K3 Series
Model Number	USVEG320WKND
Price	\$895.00
Dimensions	25" x 11" x 3"
Wattage	320
Suggested Replacement For:	600W HID
Total Diodes	150
Diode Wattage	3 Watt
Footprint	3' x 4'
Input Voltage	100-240VAC
Work Frequency	50/60 Hz - Suitable for Global Energy Environment
Output Voltage	UL Standard - Less than 76VDC
Amperage	2.67 at 110VAC
Certifications	CE, RoHS
Length of Warranty (YEARS)	3

KIND LED Veg Grow Lights use a proprietary 12 bandwidth spectrum comprised of 3 watt diodes that run at 650mA, compared to most lesser grow lights that run at 500mA with only a 6 bandwidth spectrum. Thick 2cm aluminum heat sink optimally dissipates heat allowing the KIND LED veg grow light to last longer, running more efficiently and with the greatest performance in its class. Featuring the Revolutionary "Second Optical Lens" for maximum photosynthetic penetration from plant top to base. This revolutionary LED veg light will produce the lushest, bushiest plants, with the tightest internodal spacing.
